An untapped potential for water reuse in the EU

- ❑ Reused wastewater in Europe: **1 billion m³/year** in 2006 =
 - 2.4% of the total volume of treated effluents (5-12% in Greece, Italy and Spain)
 - ~ 0.4% of annual EU freshwater withdrawals

- ❑ Achievable potential.
→ **6 billion m³/year**
by 2025

- ❑ A strategic option beneficial to both the environment and economy

→ Towards a more
Circular Economy
